

10/28/22

To Whom it May Concern.

This letter will serve as a positive recommendation and reference for John Barchella.

John has worked with us successfully for the last eight years in the marketing, distribution and demonstration process of our products and systems, and is a registered Independent Representative for Sorbent Green, LLC, manufacturer of Greensorb and Safegrade sustainable cleaning products.

John has been instrumental in the sales of our products to a major railroad, a multi-location car dealership and introduced us to several large national companies in a professional manner, and other industries over the years. He continues to support the sales and demonstration of our products along the Eastern Seaboard from New York to Florida.

Please do not hesitate to contact me directly to discuss John further at 571-436-2177.

Sincerely,

MICHAEL GAUVREAU
